SUMMARY

Computer Applications graduate and Wipro WILP Scholar, with hands-on experience in full-stack web development (Next.js, React, Node.js, MongoDB) and exposure to enterprise storage systems. Strong in Java and Data Structures & Algorithms, focused on building scalable, user-centric applications and real-world solutions.

EDUCATION

AIMT, Lucknow

Bachelor of Computer Application (BCA) - 8.11 CGPA

University of Lucknow

August 2023 – 2025

Army Public School

High School/Secondary Certificate Programs - 96.2/93.6

Fatehgarh Cantt.

2012 – 2021

EXPERIENCE

Wipro Limited

Jan 2026 – Present

Administrator

- Contributing to an enterprise storage project based on Dell PowerScale (scale-out NAS) solutions.
- Gaining hands-on exposure to distributed storage architecture, scalability, and performance optimization concepts.
- Working within enterprise IT environments, following operational and security best practices.
- Supporting deployment understanding, monitoring workflows, and issue analysis in large-scale storage systems.

InAmigos

Aug 2024 - Aug 2024

Project Coordination Intern

- Coordinated projects and collaborated with remote teams using digital tools.
- Engaged in strategic communication and stakeholder interaction.
- Gained practical experience with productivity platforms essential for remote work environments.

PROJECTS

Live Resume | SaaS, Next.js, Tailwind CSS, TypeScript, Razorpay, Zod, Prisma

Oct 2025 – Present

- Achieved 6th Product of the Day on Product Hunt, driving 4,000+ unique visitors and acquiring 500+ registered users within the first month.
- Built a dynamic resume platform where a single dashboard update instantly synchronizes across the user's public web profile and downloadable PDF, eliminating version control issues.
- Developed a smart PDF generation engine that embeds structured metadata and live profile links, allowing ATS parsers to accurately index content and fetch the most up-to-date candidate data.

OpenResponse – True Feedback | Next.js, MongoDB, Resend API, Shadcn UI, Zod

Jan 2025 – Feb 2025

- Built a production-scale messaging platform supporting high traffic.
- Integrated the Resend API to enable secure email-based communication.
- Designed and integrated secure RESTful APIs for message delivery and authentication.
- Formed a responsive UI using Shadcn UI components & Deployed and tested.
- Implemented robust input validation and security using Zod.

TECHNICAL SKILLS

Programming Languages: Java, C, SQL, JavaScript, HTML/CSS; Familiar with OOP concepts

Frameworks: React.js, Node.js, Next.js, Express.js, Bootstrap, TailwindCSS, Zod

Developer Tools: Git, GitHub, VS Code, MongoDB, Postman, Appwrite, Resend API, Cloudinary, JWT Auth

Data Structures & Algorithms: Solved 100+ problems on LeetCode in Java (recursion, trees, heaps, graphs, sliding window).

CERTIFICATIONS & LEARNING

- Generative AI — Microsoft & LinkedIn Learning (August 2024)
- Software Engineering Job Simulation — JPMorgan Chase&Co. (September 2024)
